

Dear parents and children,

As you know that we are going through a very bad time due to **Covid-19**. We have to be very cooperative with each other with lots of love and patience. Our kids not only can hear everything that's going around but they feel our constant tension and anxiety. We all have never experienced anything like this before. What kid's need right now is to feel comforted and loved.

So spend your valuable time with your kids and engage them in several activities. Don't worry for their studies. Whatever assignment is given to them, help them to complete. Help your kids to read the lessons of every subject. Help them to practice maths and write one page daily both in English and hindi.

Don't worry about your kids study, when the school will reopen the teachers will explain every lesson subject wise to the students. Just take care of your kids and engage them with games and activities which will make them happy. Follow the instructions given by the government. Stay at home, stay fit and safe.

Jai Hind, Jai Bharat.

With regards

Principal
